

Educational Theatre Company's In-Person Policies

All in-person programs will maintain the following guidelines:

- Program will be capped at an appropriate size for the spaces given
- The teacher will set-up specific spots for each student
- No activities will include physical interaction
- All participants, parents, and instructors have a responsibility to maintain a minimum of 6 feet of physical distance during drop off, class time, and pickup.
- Teacher and students must follow the mask wearing rules at all times

OUTDOOR Activities: Participants and staff are not required to wear a face covering when physical distancing of 6 feet is maintained. However, if they are any closer, they should put on a face covering and maintain a minimum distance of 3 feet from one another.

OUTDOOR Sharings: This policy will allow for end of class sharings to take place outdoors and without masks, as long as participants, staff, and audience maintain 6 feet of distance. However, performances will still require a mask any time a student is singing. Audience numbers will be capped to the appropriate size for the space and families will sit in pods to view the sharing.

- Parents will be given a specific area to wait for dismissal
- Teacher will take their own temperature an hour before the program and cancel if they have a fever - this will be communicated to the families via primary parent emails immediately.
- Each student will have their temperature taken by the teacher upon arrival via no-touch thermometers. Students showing a temperature above 99.5°F will immediately be sent home.
- Each student or family will respond to a symptom checklist at drop-off. Students who are showing symptoms will be sent home.
- If state or county policies change in such a way that the program must immediately end in-person, it will move to our virtual online format.

Parent Expectations

Families will communicate with Teacher ASAP if student or any immediate family or household member is exposed to Covid-19 or starts to show symptoms.

- This period of exposure and symptom time begins at the start of the first class of the session and continues for 14 days after the last class in the session
- Families agree to provide masks, water, and towels or blankets for spacing for students
- Families agree to abide by all ETC policies, particularly as they pertain to in-person classes
- Families that do not abide by these policies risk removal from the class without refund
- Adults doing drop-off agree to wait until their student's temperature is taken to confirm that they can stay for the class

If a student in the course, an immediate family member, or the teacher is exposed to Covid-19 or shows symptoms during the span of the session:

- All families will be notified immediately by the ETC office that there has been a possible exposure
